

SCIENCE & TECHNOLOGY BUILDING

UtahStateUniversity™
TOOELE

BUILDING INFORMATION

**USU-TOOELE WON THE TOP HONOR FROM
UTAH DESIGN & CONSTRUCTION IN THE
CONCRETE/STRUCTURE CATEGORY**

- **Square footage:**

1st Floor – 13,739

2nd Floor – 14,745

Total Gross Sq. Ft – 28,484

- **Large IVC Room:**

Classroom is designed to simultaneously “receive” up to 24 separate courses from all over the state.

- **Conference Room:**

Capacity: 27

- **Multi-Purpose Room A,
West Side:**

Capacity: 121

- **Multi-Purpose Room B,
East Side:**

Capacity: 123

- **South Lower Lobby:**

Capacity: 82

- **Multi-Pod IVC Room:**

Capacity: 35

- **Classroom:**

Capacity: 33

- **Group Study Area:**

Capacity: 21

- **Chemistry Lab:**

Capacity: 23

- **Biology Lab X2:**

Capacity: 22

- **Zoology Lab:**

Capacity: 24

- **Cadaver Lab:**

Capacity: 11

- **Physiology Lab:**

Capacity: 24

COURSE DELIVERY

Courses are taught by faculty in person or online via an Interactive Video Conferencing (IVC) system. One classroom is designed to simultaneously “receive” up to 24 separate courses via IVC from different sites around the state. One medium classroom and all laboratories are designed to receive instruction and serve as “origination” rooms, where a professor can teach students in person in Tooele while broadcasting to students at other USU campuses. The large multi-purpose room (capacity: 244) can be used as a single broadcast room or separated into two units that will serve up to 120 students each.

STUDENTS

USU-Tooele makes college education accessible for students of all ages. Approximately 47% of Tooele's 836 students are in high school. The rest are adult students interested in entering the workforce for the first time, retraining, enhancing current employment skills, or taking a class for personal interest.

FACULTY

USU-Tooele faculty teach courses in person and to other USU locations, including Logan. The campus currently has 10 full-time faculty with advanced degrees from respected universities. In 2016, the campus will add an additional three new science faculty members and a new nursing coordinator to its growing community of scholars and educators.

DEGREES

USU-Tooele offers all coursework necessary to complete three associate or associate of applied science degrees, 22 bachelor's degrees, 17 master's degrees, 12 minors, and one doctoral degree. Three certificates and 14 professional educational licensures or endorsements are available. Students may also choose to take general education or major classes before transferring to Logan for other degrees not fully available at the regional campuses.
